

GRAINPRO® TRANSAFELINER™

Protect commodities without worrying about insect infestation losses and mold growth in transit!

Features & Advantages

- Preserves taste, color, and aroma of commodities
- Easy to install in a shipping container
- Used for bagged/palletized goods in 20/40-ft. shipping containers
- Fit for storage of organic products
- Effectively eliminates insect infestation while products are in transit
- Made of hermetic multilayer film with superior gas and moisture barrier properties
- Inhibits mold growth which causes aflatoxins, a major public health hazard
- Protects commodities from condensation

The GrainPro® TranSafeliner™ protects and preserves the quality of dry agricultural commodities shipped in bags or on pallets inside a shipping container. This transport solution has superior gas and moisture barrier properties that restrict the entry of moist ambient air, thus minimizing condensation, inhibiting mold growth and eventual insect infestation. This preserves the quality and prevents post-harvest losses of dry agricultural commodities in transit.

- Prevents the oxidation of commodities and the development of microorganisms
- Preserves quality and minimizes loss of stored dry agricultural commodities
- Achieves safe transport of dry agricultural commodities without using toxic and harmful fumigants

MAXIMUM ALLOWABLE CAPACITY

Dimensions L x W, cm (inch)	TRANSAFELINER 20'	TRANSAFELINER 40'	TRANSAFELINER HIGH CUBE
		900 x 500 (354 x 197)	1,500 x 500 (591 x 197)
Volume, m ³	33	66	76
1000 kg FIBC	20	40	40
50 kg bag	400	800	900
25 kg bag	800	1600	1800

Disclaimer: The approximate capacity provided above is based on our computation. Capacity variance based on actual commodity stored will apply.
