

# GRAINPRO® GRAINSAFE BAG™

Perfect as a storage and transport solution to keep your commodities safe anywhere, anytime!

## Features & Advantages

- Quality of commodity is preserved without the use of chemicals
- Maintains germination and vigor of stored seeds
- Designed to be used inside sheds and buildings or outdoor, provided that shades/cover are installed
- Fit for storage of organic products
- Protects against mold growth and insect infestation
- Can be set-up on a platform anti-rodent protection to prevent rodent attack
- Can store commodities up to one-ton capacity

The GrainPro® GrainSafe Bag™ is made from a specially designed, hermetic material and zipper system. Its gas-tightness allows insects' natural breathing process to deplete the available oxygen and replace it with carbon dioxide. This conversion typically occurs within 10 days of storage and kills insects in all life stages. The heavier the infestation, the more rapid the kill is. The GrainPro® GrainSafe Bag™ is UV-resistant, waterproof, has low permeability, and is resistant to rodent attack when properly installed.

*ADD ON: Gas Hermetic Fumigation (GHF) version of GrainPro® GrainSafe Bag™ with an inlet port for easy fumigation. The GHF version is designed for CO<sub>2</sub> fumigation to immediately control any infestation using a CO<sub>2</sub> cylinder*

### APPROXIMATE CAPACITY

<b>Dimensions</b> <small>(L x W x H), cm (inch)</small>	120 x 120 x 200 (47 x 47 x 79)
No of bags (25kg)	40 bags (25 kg)
No of bags (50kg)	20 bags (50 kg)

**Disclaimer:** The approximate capacity provided above is based on our computation. **Capacity variance based on actual commodity stored will apply.**
