

# OXYGEN ABSORBER™

Complete your post-harvest process with innovative tools that support hermetic solutions!

## Features & Advantages

- Affordable
- Extends the shelf life of agricultural commodities
- Reduces oxygen level at a faster rate
- Non-hazardous to health
- Easy to use and does not require elaborate preparation
- Can be disposed without any required special treatment

The Oxygen Absorber™ is a product that absorbs oxygen inside hermetic solutions for safer and more effective storage of gains. It greatly reduces oxygen levels to minimize infestation, inhibit the growth of fungi and prevent oxidation (as in the case of oil seeds and nuts).

It comes in a special packaging that prevents its contents from coming in contact with food while still allowing for oxygen absorption.
