

# GRAINPRO® FIBC HERMETIC LINER™

Protect commodities without worrying about insect infestation losses, mold growth and germination in transit!

## **Features & Advantages**

- Fit for storage of organic products
- Worry-free shipping and warehousing of bulk commodities
- Prevents cross infestation of stocks in the warehouse
- Ease of mechanical operations using forklift
- Preserves taste, color, and aroma
- Inhibits mold growth which produces aflatoxins, a major public health hazard
- Made of hermetic material with superior barrier properties
- Secured closing with the use of zipper
- Maintains quality and preserves germination potential

The GrainPro® FIBC Hermetic Liner™ is a liner specifically designed for flexible intermediate bulk containers (FIBC) also referred to as “big bags”. These are high-strength polyethylene hermetic liner with moisture and gas-barrier properties that is ideal for storing dry agricultural commodities in warehouses in semi bulk, preventing moisture ingress and oxidation. The FIBC Hermetic Liner™ includes a downspout at the bottom for convenient grain discharge and can also be fumigated with carbon dioxide. GrainPro delivers only the Hermetic liner, FIBC or big bag is not included.

GrainPro’s patented hermetic technology allows organic storage of dry agricultural commodities. It offers a green solution and the benefits of complete protection from insect damage, moisture damage, molds, fungi, and its consequent health hazards without the use of harmful fumigants and other chemicals.

APPROXIMATE CAPACITY ( kg )		Dimensions	
MAIZE	1500 kg	FIBC Hermetic Liner™	(L x W), cm (inch) 325 x 240 (128 x 94.5)
		FIBC Outer Bag without Baffles	(L x W x H), cm (inch) 110 x 115 x 110 (43.3 x 45.3 x 43.3)

**Disclaimer:** The approximate capacity provided above is based on our computation. **Capacity variance based on actual commodity stored will apply.**
